

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

## AVIFAUNA No. 12

# Birds of the Islands off the Coast of Southern California

By ALFRED BRAZIER HOWELL

127 pages; published June 30, 1917

A detailed review of the ornithology of the California islands: 195 species are treated; complete synonymies of each are given; contains tables of species by islands, a hypothetical list of 13 species, an exhaustive bibliography, and discussion of problems presented by the island avifauna. This is an important contribution that no active ornithologist can do without.

Members of the Cooper Club may take the regular Club discount (50%).
